MDLsolutions® in partnership with **BusinessWare Solutions**, provides the **Republican Party of the United States (Minnesota Headquarters),** with a Call Center Solution to meet their unique requirements.

Download your Free 45 day TRIAL SOFTWARE at www.mdlsolutions.com

MDLsolutions ®, in partnership with **BusinessWare Solutions** and **3CX** has provided a commercial Call Center Solution to the **U.S Republican Party**. MDLsolutions was required to provide unique enhancements to their MDLsolutions Predictive Dialing Call Center Solution in order for it to meet their needs. The features were implemented quickly and seamlessly into the MDLsolutions Call Center Solution with no downtime to the client. After delivering the final solution, the Lead Engineer at BusinessWare Solutions stated MDLsolutions is "100% hands down the best software company I have ever worked with.".

MDLsolutions was able to meet and exceed many of the features/performance requirements of their previous Predictive Dialer/Call Center Solution, while at the same time reducing costs.

The U.S Republican Party has since made an additional purchase.

Quotes from actual customers:
"You have an exciting product that can really change the efficiency of business."
 "Your support is great, we really appreciate the extra help."
"100% hands down the best software company I have ever worked with."
